Director, Colorado  
Center for Biobehavioral Health  
Boulder, CO 80301

**C. Penny Hiernu**

**Secretary**

Executive Director  
ISSSEEM  
Golden, CO 80401

## **The International Society for the Study of Subtle Energies and Energy Medicine**

The International Society for the Study of Subtle Energies and Energy Medicine (ISSSEEM), is an interdisciplinary organization for the study of informational and energetic interactions. The Society is concerned with the study of informational systems and energies that interact with the human psyche and physiology, either enhancing or perturbing healthy homeostasis.

The Society was organized in the fall of 1989. As a result of our efforts over the past year, over 1,800 individuals have elected to join ISSSEEM. Of that number, 17% are physicians, 28% have completed their doctoral work, 20% have completed a masters, 17% a bachelors. We feel that psychology, psychophysiology, psychophysics, and medicine are rapidly coming together in a synthesis that will keynote an innovative science of the 21st century. It is the hope of the leadership of the Society that through carefully prepared and edited publications the Society will stimulate ISSSEEM interest in the greater scientific community.

Membership dues sustain the Central office and provide members with a newsletter. The Society encourages the exchange of information through conferences, seminars, and workshops. An annual conference is planned in June of every year (see announcement contained on back inside cover).
