

SUBTLE ENERGIES & ENERGY MEDICINE

Volume Nine • Number One

From Psychosomatic to Theosomatic:
The Role of Spirit in the Next New Paradigm

Manifesto for a New World Medicine

Effects of Reiki on Pain
and Selected Affective and Personality Variables
of Chronically Ill Patients

ISSSEEM
BOARD OF DIRECTORS
1999-2000

President

Leonard A. Wisneski, M.D., F.A.C.P.
American Whole Health, Bethesda, MD

Co-President-Elect

Chris Hibbard, Ph.D./David Hibbard, M.D.
Family Medical Center, Louisville, CO

Co-Past Presidents

Ann Nunley, M.F.A., & Bob Nunley, Ph.D.
Sonrisa Renewal Center, McLouth, KS

Directors

Daniel L. Benor, M.D.
Medford, NJ

Steven L. Fahrion, Ph.D.
*Life Sciences Institute of Mind-Body Health
Topeka, KS*

Elmer Green, Ph.D.
*Director Emeritus, Voluntary Controls Program
The Menninger Clinic, Topeka, KS*

C. Penny Hiernu
ISSSEEM, Golden, CO

Patricia L. Norris, Ph.D.
*Life Sciences Institute of Mind-Body Health
Topeka, KS*

Carol Schneider, Ph.D.
*Colorado Center for Biobehavioral Health
Boulder, CO*

T. M. Srinivasan, Ph.D.
*Metaphysical Research Institute
Tempe, AZ*

Jerry E. Wesch, Ph.D.
*Health Psychology Consultations
Chicago, IL*

**THE INTERNATIONAL SOCIETY
FOR THE STUDY OF SUBTLE ENERGIES
AND ENERGY MEDICINE**

The International Society for the Study of Subtle Energies and Energy Medicine (ISSSEEM) is an interdisciplinary organization for the study of the basic sciences and medical and therapeutic applications of subtle energies. The Society was organized in the fall of 1989 and is a non-profit, public benefit corporation based in Colorado.

Subtle Energies & Energy Medicine is a premier peer-reviewed, scientific journal designed to meet the needs of experimental scientists, other empirical researchers, clinicians, and theoreticians with interests in consciousness, healing, and the dynamics and limits of human potential. Published papers address the study of subtle energies and informational systems that interact with the human psyche and physiology, either enhancing or perturbing healthy homeostasis.

The Journal is explicitly interdisciplinary in order to allow those with a deep understanding of one discipline to compare insights with those others working along different paths. The Journal provides methodological and clinical guidelines, theoretical background, and scientific credibility for subtle energies applications and supports increased dialogue among clinicians, healers, and the scientific and medical communities.

The Journal is a unique outlet for research and commentary at the interface of several cutting-edge fields, including complementary and alternative medicine, applied psychophysiology and biofeedback, psi research, the new physics, and bioelectromagnetic medicine. Published papers include state-of-the-art experimental research, theoretical essays, clinical papers, case reports, and commentaries.

Modest membership dues and contributions sustain the Central Office and provide members with a quarterly magazine, *Bridges*. The ISSSEEM Annual Conference, held in Boulder, Colorado, serves as the leading public forum where our mission and our values are exemplified, as well as a place where all of our members and other interested persons are welcomed and educated. Program details are available from the ISSSEEM Central Office.

The International Society for the Study of Subtle Energies and Energy Medicine is a non-profit, public benefit corporation based in Colorado. All unsolicited manuscripts must be accompanied by a self-addressed stamped return envelope. Submissions must conform to guidelines detailed at the end of the Journal. © 2000 by The International Society for the Study of Subtle Energies and Energy Medicine.
